

Good News Foundation

a new lease of life

Mary's House: a place for mothers and children in difficulties. Home-like atmosphere, mentoring, support.

Charity work and practical help, primarily for widows or single mums and their families.

Sending aid by post and the Christmas shoebox project.

Ministry among the Roma: mentoring and training programmes to equip participants for the world of work.

Encouraging Christian fellowship and building up believers through conferences, pastoral care and counselling.

Publishing and distribution of books to individuals, institutions, schools, kindergartens, and within churches.

FireMEDIA.hu and Creation Project: raising awareness, reviving and strengthening our country's Christian roots and our sense of national responsibility, showing the relevance of a Biblical worldview in the 21st century through issues of the *Creation Magazine*, novels, online blogs and articles, etc.

Our activities are all based on a sense of calling and social responsibility, seeking to help and encourage the disillusioned Hungarian people to take on **a new lease of life**. We want those who have been trapped in difficult circumstances or have lost their faith to find **true peace and purpose** through God, and to become courageous members of society with fresh **vision** for the future, equipped to **start their own families** and to **build a strong nation**.

**Our main goal is
to help the rising generation to flourish,
to find their way back to their Christian roots,
and to discover new life,
new strength and new purpose.**

Our team of co-workers and volunteers has been working for this since 1990. Our vision is to see **lives changed for good** and **the Hungarian nation spiritually renewed**. We believe it is important to show the **reliability of the Bible** and the **uniqueness of Jesus Christ** in today's world that has lost its roots and is full of conflicts and confusion, yet is still trying to pretend that everything is ok. We must find our way back to the **right foundations**. There is no other real future for us, as Hungarians or as individuals.
